**Escape the routine**
Steam acts as an effective detoxifier. The wet heat from the steam room thins and opens the mucous membranes in the body, which helps to relieve pressure. This is highly beneficial for those that suffer from asthma and bronchitis, as it helps with sinus relief. The steam room causes you to sweat, leading to weight loss, removal of toxins and cleansing of the body.

Steam Generator
VERDURE offers a wide range of Steam Generators along with Digital Control Panels, which are modern and easy to use. Our generators are suitable for both domestic and commercial applications. They generate temperature-based steam within few minutes meant for steam bathing. Our Steam Generators have been installed and successfully working in major Hotels, Resorts, Health Clubs, Spa Centers, Farmhouses, Luxury Apartments, etc. Following are the salient features of Verdure’s steam:
* Corrosion resistant heating elements
* Water level and dry run protected
* Safety valve & Temperature cut-off

Chilled Shower System:
As per the hot and cold therapy, a chilled water pressure bath rejuvenates the body after a hot sauna or steam bath. Water temperature of 7°C to 12°C is maintained. As the hot Sauna or Steam opens the pores of the skin, the chilled shower facilitates cleaning of skin and contraction of pores, leaving behind a soft, smooth and clean skin. Research indicates that chilled water bath provides muscle simulation and enhances one’s mental ability by reducing stress level. VERDURE’S chilled shower system comprises of a chilling unit comprising of an inner and outer body of stainless steel along with automatic temperature control, a digital Kirloskar Compressor and a Hydro-pneumatic water boosting pressure system.
